1. The abstract and amendment filed March 22, 2005 have been entered.
2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

Non-initialed and/or non-dated alterations have been made to the oath or declaration (inventor Ostermann portion). See 37 CFR 1.52(c).

It does not identify the priority PCT application with the correct filing date of 25 September 1998.

3. A supplemental declaration signed at least by inventor Ostermann with the correct PCT filing date is required before payment of the issue fee to overcome the above objections to the declaration. Applicant's argument that the corrections are unnecessary have been noted but were unpersuasive and did not appear to be meant to be taken as a petition to waive the rules under 37 CFR 1.181-1.183. Any such petition should be directed to the Office of Petitions.
